

PRESS RELEASE

5 October 2015

SNAME is pleased to announce the 2015 distinguished Fellows.

Fellow is one of the highest grades of membership.

A SNAME Fellow is recognized by their peers for making outstanding personal contributions to naval architecture, marine or ocean engineering, or allied disciplines through significant achievements in design, research, production, operation, education or associated management.

Only 3.5% of all SNAME members are Fellows.

The newly elected Fellows will be recognized at the President's Luncheon on 6 November 2015 at the SNAME Maritime Convention held in conjunction with the Triennium World Maritime Technology Conference 2015 in Providence, RI.
